Experienced Full Stack Developer proficient in Java and Angular, passionate about crafting efficient and innovative software solutions. With a solid foundation in front-end and back-end development, I excel in designing, implementing, and maintaining robust web applications. Known for a keen eye for detail and a commitment to staying updated on emerging technologies, I thrive in collaborative environments where I can contribute my expertise to drive projects forward. My dedication to delivering high-quality code and user-centric experiences makes me a valuable asset to any development team.

## PROFESSIONAL EXPERIENCE

### Full stack developer

Jun 2023 - Present

Elite business | Tunis

- Developed an **ETL Dashboard** to convert data flows into a PostgreSQL database, ensuring data integrity and performance.
- Created a comprehensive **Reporting dashboard** for telecom operator users, collaborating with stakeholders to meet user needs.
- Implemented a **Notification management system** to handle system alerts and notifications across all dashboards using Kafka and WebSockets, enhancing real-time responsiveness and reliability.
- Utilized technologies including Angular, React, Spring Boot, JEE, Python, Git, Docker, Kafka, and WebSockets.
- **Achievements:**
  - Delivered all projects on time and within budget.
  - Increased system performance and user satisfaction by 20%.
  - Improved data processing efficiency by 30% through optimized ETL workflows.

### Web developer intern

Jan 2023 - Jun 2023

Elite business | Tunis

- Assisted in developing and maintaining web applications using React and Spring Boot.
- Implemented new features and bug fixes, ensuring high-quality code and performance.
- Participated in code reviews and team meetings to improve project quality and collaboration.
